

Figure 1: Schematic representation of the 12 experimental conditions. The figure shows 12 diagrams of a 2x2 grid of blocks. Each diagram is labeled with a number (1-12) and a description of the block types. The diagrams show different combinations of 'Control' and 'Training' blocks, and different numbers of blocks in each quadrant. The diagrams are arranged in a 4x3 grid. The first column shows conditions 1-4, the second column shows conditions 5-8, and the third column shows conditions 9-12. The diagrams are labeled as follows: 1. Control (all four quadrants), 2. Training (all four quadrants), 3. Control (top-left and bottom-right), 4. Training (top-right and bottom-left), 5. Control (top-left and bottom-right), 6. Training (top-right and bottom-left), 7. Control (top-left and bottom-right), 8. Training (top-right and bottom-left), 9. Control (top-left and bottom-right), 10. Training (top-right and bottom-left), 11. Control (top-left and bottom-right), 12. Training (top-right and bottom-left).
